**Disclosure:** Returns cited above are derived from the Alpha client composite of all client accounts in the program net of fees and expenses. The client composite is weighted by account size, includes all fee-paying accounts, and includes clients paying both maximum and minimum fees. Alpha's maximum fee is 2.0% per annum. Returns are net of annuity expenses and include the reinvestment of dividends and interest. Past performance is not a guarantee of future performance. The Alpha program presented invests exclusively in mid-cap index funds.
